Motivated Computer Engineering Technology student seeking a Fall & Winter 2025-2026 Co-op position to apply and expand my skills in hardware, software, operating systems, and networking, while gaining hands-on experience in a fast-paced, technology-driven environment

Summary of Skills

- Hands-on experience with virtualization and cloud computing platforms, including VMware, Windows Server, and Unix-based systems
- Strong foundation in networking concepts such as IP addressing, switching, and routing protocols
- Proficient in C programming, with exposure to scripting and automation in IT support and system diagnostics
- Proficient in Microsoft Office, Word, Excel, PowerPoint
- Skilled in using CAD tools for circuit design and simulation, along with electronics interfacing and troubleshooting
- Excellent problem-solving and analytical skills, adaptable in fast-paced environments with shifting priorities
- Effective communicator with the ability to collaborate across teams and deliver results under tight deadlines

Education

Computer Engineering Technology, Advanced Diploma (Co-op)

Jan 2024 – Present

Humber Polytechnic, Etobicoke, Ontario

- Achievements: Dean's Honour List (Winter 2024 & Summer 2024)
- Highlighted Courses: Computer Hardware & Operation Systems, Digital Fundamentals, Electric & Electronic, Circuits Programming Fundamentals & Programming in C, Telecommunication Networks and Unix Scripting & the Internet

Projects

Independent Learning Project – Impacts of AI on Jobs in the IT Sector

Feb 2025 – April 2025

Humber Polytechnic – Co-op

- Conducted thorough research on the impacts of AI on jobs in the IT Sector, utilizing most recent research findings.
- Networked with various individuals in the field such as Conseil scolaire catholique Franco-Nord - IT Analyst, HRIS Specialist - Willkie Farr & Gallagher LLP, and Assistant Branch Manager at CIBC to understand real-world AI applications.
- Demonstrated ability to communicate and outreach through surveying individuals in different sectors.
- Reflected on the external forces impacting the sector and explored personal post-grad career goals in IT.
- Completed LinkedIn Learning courses on becoming an adaptable employee during change and uncertainty and IT help desk fundamentals.
- Presented findings and research to Humber Faculty and team of other students.

HTML Portfolio Website (Semester 2, Unix Scripting & the Internet)

Summer 2024

Project link - https://shaqjuschillin.github.io/Shaq/Shaq_Portfolio.html

- Developed a portfolio website using HTML and CSS, following modern web development standards.
- Incorporated key HTML elements including tables, forms, images, hyperlinks, and lists to showcase structured content.
- Emphasized responsive design principles to ensure compatibility across different devices.
- Demonstrated proficiency in front-end development and website optimization techniques.

AutoCAD Isometric and Assembly Drawings (Technical Drawing)

Nov 2022 – Jan 2023

- Developed detailed isometric and assembly drawings of real-world objects using AutoCAD, adhering to precise measurements and geometric accuracy.
- Applied technical drawing principles to visualize objects from multiple angles, ensuring comprehensive 3D representation.
- Enhanced skills in dimensioning, layering, and annotation to produce professional-grade technical schematics.

(Cont'd)

LinkedIn: www.linkedin.com/in/shaquain-l-hazell-8144b3238 | GitHub: <https://github.com/ShaqJusChillin>

- Learned how to effectively interpret real objects and translate them into accurate digital designs, reinforcing an understanding of spatial geometry and engineering design standards.

Work Experience

Sales Representative

Sep 2023 – Dec 2023

A. Ally's & sons, New Amsterdam, Berbice, Guyana

- Proactively identified customer needs through effective communication; tailored product offerings to meet individual requirements.
- Negotiated pricing with clients, securing long-term agreements that boosted company revenue.
- Delivered product presentations and demos, effectively showcasing value propositions and closing deals.
- Organized store displays and inventory to maximize product visibility and drive sales.
- Boosted company revenue by 10% through successful negotiation and long-term client agreements.

Commercial Cleaner - Bank Branches

Feb 2024 – Present

AA Building & Cleaning Services, Brampton, Ontario

- Perform detailed cleaning of up to 5 or 10 different bank branches, ensuring high standards of cleanliness and sanitation
- Work as part of a small team to complete tasks efficiently within tight timeframes
- Responsible for sweeping, mopping, vacuuming, dusting, and sanitizing high-touch surfaces in compliance with health and safety guidelines
- Adapt to varying branch layouts and schedules while maintaining consistency and quality across multiple locations
- Demonstrate reliability, time management, and attention to detail in a fast-paced, customer-sensitive environment

Volunteer Experience

Orientation Volunteer

Sept 2024

Humber College, Etobicoke, Ontario

- Collaborated with a team to set up and tear down event infrastructure, including photo backdrops and game stations, ensuring a smooth and engaging event experience.
- Provided assistance to new students, guiding them through the orientation process and answering questions.

Kids Ministry (Grades 2-5)

April 2025 – Present

Hope City Brampton, Brampton, Ontario

- Support lead teachers in delivering engaging lessons and activities to children in grades 2-3/4-5.
- Assist with classroom setup, material preparation, and maintaining an organized learning environment
- Foster a positive and inclusive atmosphere by encouraging participation and respectful behavior
- Provide one-on-one support to children as needed to help them stay focused and engaged.
